Innovation in our laboratories

"In a market characterized by a constant stream of aviation products, innovation more than ever is the key to success. Research has always been and will continue to be our strategic priority to safeguard our future."

Since 1942, **APPLIED - ORAPI Group** has been understanding and anticipating the requirements of the aviation industry. Providing mechanical and maintenance engineers, Technologically Advanced Solutions, to improve process cleaning efficiency and reduction of operation costs without compromising quality and standards.

Conformance

The high quality and manufacturing standards of **APPLIED** products are continually confirmed by major O.E.M. corporations (Goodrich, Boeing, Allied Signal, Honeywell, G.E., Pratt & Whitney, Rolls Royce etc), and tested by independent certification bodies, such as: ISO standards - **9001 & 14001**, military standards - **NATO, US MIL**, aeronautic standards - **ASNA, AIMS, AMS, BOEING D6**.

These audits and certifications often award **APPLIED** the top grades, while respecting the standards of high quality in terms of products and technology.

International Network

With a distribution coverage in more than 150 countries and manufacturing facilities in major continents. **ORAPI** is positioned to provide the necessary local support and expertise resources backed by a global International Organization.

Safety & Environment

ORAPI is committed to ensure safety and developing products that are environmental friendly. Our goal is to provide technological innovations which are safe to the public health and maintaining the quality of the environment.
